Dear Sir/Madam,

Every year, the Admission Branch takes the lead in helping and guiding the prospective students as they walk through the admission process. We establish HelpDesks, activate Chatbots, correspond through emails and phone calls to attend to the queries of the candidates. For managing these platforms, the Admission Branch appoints Interns who are bonafide students of University of Delhi. To assist the Branch in the forthcoming admissions, we are inviting applications for our '**Admission Support System Internship 2023**'

The Admission Support System Internship programme is a temporary engagement of currently enrolled students. A student, if selected, will be engaged for half a day for 5 days a week. They will guide the prospective students of UoD through the complete admission cycle of 2023-24 and will also get varied exposure to the organizational work culture of the UoD. Furthermore, such experiences and learning from the internship will help them in their higher studies and significantly enhance their employability.

The Admission Branch requests you to encourage your student to apply for the internship program. You are also requested to circulate this information by publishing the attached poster in your student groups.

Interested students may apply through the link: <https://forms.gle/ZW8aASnCVbpJ71G7>.

The last date to apply is: **20.05.2023**
