Sub: Admission information of M.Sc. in Environment Management of University School of Environment Management (USEM) of Guru Gobind Singh Indraprastha University

Dear Sir/ Madam,

Guru Gobind Singh Indraprastha University is a dynamic and growth oriented University with A++ NAAC accreditation established by the Government of Delhi in the year 1998 with two existing campuses in Dwarka and Surajmal Vihar with world class facilities to facilitate and promote studies, research and extension work with a focus on professional education in emerging areas of higher education in the disciplines of engineering, environmental sciences, technology, management studies, medicines, pharmacy, nursing, education, law, etc. and also to achieve excellence in these related fields, thereby to equip the students to become effective professionals with best career prospects to meet the emerging global and industrial needs of the society. The third campus at Narela is under construction phase.

The recent advancement in environment science ensures highly paid opportunities in several domains such as in the fields of land resource management, integrated emergency management, air & water management, disaster management, risk assessment, transportation, urban planning, environment, hydrology, forestry, agriculture, military, mining, business, health, defense, space research, and Geology. Environment Professionals are in great demand in all these important sectors.

Our University is running two years **M.Sc. in Environment Management** to cater the great demand of Environmental professionals in various fields. The programme gives in-depth and comprehensive knowledge about pollution management, environmental impact assessment, ecosystem functions and services, wildlife management, sustainability, water resources, restoration, biodiversity, climate change, environmental policies and regulation. The programme trains the students as environmental professionals well-equipped to work in different sectors like industry, developmental projects as EIA professionals, climate change mitigation, energy technologies, pollution and health safety, geospatial technology professional, areas of ecosystem integrity and bio-remediation. Faculty members are highly qualified and experienced in different fields of environment.

Registration is open from February 2, 2026, to March 31, 2026 (<https://ipu.admissions.nic.in/>).

I humbly request you to kindly display the poster sent along with this on your notice board/ and circulate widely among the aspiring students (who are pursuing B.Sc./ B.Tech degree/ B.Voc. in Science Stream) of your college.

Thanking you,

S.O (Admin)
