**Subject: Celebration of Safer Internet Day on 10th February 2026 across all districts of NCT of Delhi**

Sir,

Greetings of the day!

I am writing to bring to your attention a nationwide awareness campaign being organized by the Ministry of Electronics and Information Technology (MeitY), Government of India, to observe Safer Internet Day on 10th February 2026.

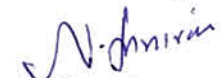

With the rapid growth in internet usage across both urban and rural areas, there is an increasing need to address emerging cyber threats and promote responsible and safe use of digital technologies, including Artificial Intelligence (AI). The theme for this year, "Smart Tech, Safe Choices – Exploring the Safe and Responsible Use of AI," aims to create awareness on cyber hygiene and safe online practices, with special focus on children, women, and youth.

In pursuance of the D.O. letter received from the Secretary, MeitY, addressed to the worthy Chief Secretary (copy enclosed), the following activities are proposed to be undertaken across the National Capital Territory of Delhi:

- **District-Level Workshops:** The National Informatics Centre (NIC) will conduct awareness workshops at the district level through their respective District Informatics Officers (DIOs) / District Informatics Assistant (DIAs).
- **Awareness Presentations:** NIC officers posted in the districts will deliver presentations to sensitize local citizens and officials on internet safety and the responsible use of AI.
- **Support Resources:** C-DAC Hyderabad, under the Information Security Education and Awareness (ISEA) Project, will provide requisite awareness materials and technical support for the campaign.

In this regard, it is kindly requested that necessary directions may be issued to all District Magistrates (DMs) of NCT of Delhi to extend their full cooperation and logistic support for the successful implementation of this initiative. Close coordination between the District Administration and NIC officials will be crucial for the effective conduct of the campaign in their respective districts.

Yours sincerely,

  
(N Srinivas)  
SIO & DDC

Government of India  
D.O. No. L-14017/3/2024-HRD  
Dated: 03.02.2026

Dear Chief Secretary,

As you may be aware that the exponential rise in the number of internet users in India, in all parts of the country including rural areas, and technological advancements have enabled e-Services and digital payments but also raised cyber threats immensely. Additionally, the use of Artificial intelligence is increasing in everyday life, shaping how we communicate, work, learn, and make decisions. One of the key focus areas is to generate awareness amongst the public at grassroot level about the safe and responsible use of internet & AI and relevance of cyber hygiene.

2. Each year, **Safer Internet Day** is observed globally on the second Tuesday of February to raise awareness about the safe and responsible use of the internet, particularly among children, women, and young people. This year, Safer Internet Day will be celebrated on **10<sup>th</sup> February 2026** under the theme "**Smart tech, Safe choices – Exploring the safe and responsible use of AI**".

3. To mark the occasion, the Ministry of Electronics and Information Technology (MeitY) is organizing a nationwide awareness campaign on **10<sup>th</sup> February 2026**. This initiative, organized under the Information Security Education and Awareness (ISEA) Project, aims to educate diverse internet users on safe online practices, cyber hygiene, major cyber threats, and effective mitigation strategies, while fostering responsible use of internet and AI among citizens.

4. In this context, like last year, NIC would be conducting Awareness Workshop at the district level through their DIOs/ADIOs on Safer Internet Day, to educate local citizens/officials on internet safety practices and safe & responsible use of AI. In addition, the State Information Officers (SIOs) would be conducting an awareness workshop in the State Headquarters. C-DAC Hyderabad, under the ISEA Project, will extend the necessary support and awareness resources for this campaign.

5. I would be grateful if you could kindly direct respective Departments/Organizations/ District Administration to extend necessary support to the above awareness campaign to make it a huge success. For any further assistance, Sh. M Jagadish Babu, C-DAC Hyderabad (Mob. 9849287132 / Email: [mjagadish@cdac.in](mailto:mjagadish@cdac.in)) may be contacted.

With regards,

Yours sincerely,

  
(S. Krishnan)
